

Part of the  
**Business For All**  
Series

# Leap of Faith

**Easy Read**

**January 2020**

## Leap of Faith

Life isn't always safe.

Get information, make plans, think about risks.

Then sometimes you need to take a leap of faith.

The Bridge was a research project about starting a business.

## We found

Starting a business takes more than one leap of faith.

Taking a leap is scary, but it can make you feel great.

If you know what the leaps are, you can get information and make plans.

Then you can choose if taking the leap is right for you.

It's your life and your choice. If you don't get the information, you don't have a choice.

**There are things we can do, like:**

Find people who believe in you and will support you.

**We need to campaign for:**

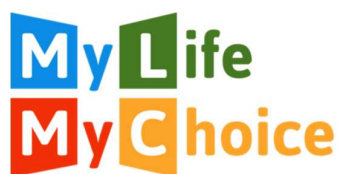

The right to take informed risks.

**UC** Universal Credit

A benefits system that makes it possible to take the financial leap of faith.

**socialfirmswales**  
enterprise, employment, empowerment
